Initial Approvals

Ladies and Gentlemen,

Following your application please find enclosed the approval certificates quoted below:

"GFL-70C / CO2"	No. WF 0750220 HH
"GFL-71 / CO2"	No. WF 0750221 HH
"GFL-71Ni / CO2"	No. WF 0750222 HH
"GFL-72 / CO2"	No. WF 0750223 HH

The tests have been performed under our Surveyor's supervision and the results obtained are in line with our requirements. The welding consumable mentioned will be included into our "List of Approved Welding Consumables", published in internet.

By the approval manufacturers assume the responsibility for ensuring unchanged composition, welding characteristics and quality properties. These are to be controlled during current manufacture by appropriate production checks and random tests, the results of which are to be presented to Germanischer Lloyd on request.

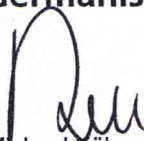

Any changes of designations, standard classifications, quality features of the welding consumables and/or auxiliary materials as well as changes within the manufacturing workshop and intended changes regarding the approval are to be automatically made known to Germanischer Lloyd Head Office and the local Surveyor.

Please apply in time with our local Inspection Office for arranging the prescribed repeat tests for the ensuing year.

The fees for surveillance of the approval tests and issuance of the approval certificates will be charged to you separately under order-no. 0068 07 51988.

Yours faithfully,

Germanischer Lloyd

Michael Kühnel
